

MINI MISSION

Background

Think about your school. Are there ways to use energy differently - or even create energy? What might you do to change the impact on the environment both inside and outside the school buildings? Think about the green spaces and the positive impact nature can have.

Hint: green space isn't just about trees.

Your mission

Using any creative materials that you have, build a model that shows one way a school could have a positive impact on the environment.

Think big, think small, think wild. Every idea is a good idea!

Be sure to share your ideas with Take Action Global and the LEGO Group, BUT make sure that your photos are only of your creation and don't include anyone's faces.

Submit your idea here: <https://bit.ly/legoschooltohome>
