

BUILDING THROUGH INTERACTIONS

EARTH'S CLIMATE HAS HEATED AND COOLED DOWN MANY A TIMES. TODAY THE CLIMATE IS GETTING MUCH WARMER AS COMPARED TO THE PAST. HUMAN ACTIVITY IS THE MAIN CAUSE OF CLIMATE CHANGE. THE CLIMATE CHANGE IS AFFECTING THE EARTH'S ECOSYSTEM. IT'S NOT TOO LATE FOR US TO TAKE ACTION IN ORDER TO PROTECT OUR CLIMATE. TO STOP CLIMATE CHANGE WE SHOULD AWARE PEOPLE. ONE OF THE BASIC THING THAT WE ALL CAN DO AS RESPONSIBLE CITIZENS IS THAT WE SHOULD SWITCH OFF OUR THE ENGINE OF YOUR CAR ON RED LIGHTS. TRANSPORTATION IS NOW THE LARGEST SOURCE OF CARBON EMISSIONS MODERN TRANSPORTATION RELIES HEAVILY ON PETROLEUM. BURNING OF THESE FUELS ADDS TO GREENHOUSE GASSES. THESE DAYS ELECTRIC VEHICLES HAVE BEEN INTRODUCED WHICH HELP IN REDUCING OUR CARBON FOOTPRINT. USING PUBLIC VEHICLES CAN SAVE THE ENVIRONMENT AND OUR MONEY TOO. BICYCLING AND WALKING ARE NOT JUST RECREATIONAL ACTIVITIES; THESE OPTIONS HELP TO REDUCE GREENHOUSE GAS EMISSIONS
